SUPPLEMENT TO  
REPORT NO. [REDACTED]

1. Isotta Fraschini of Milan has negotiated agreements with the French firms Renault and Coudron to supply the latter with Delta, 750 hp, airplane motors. The first of such motors is to be delivered in the near future and, if they are entirely acceptable, approximately a thousand more will be ordered. These motors are to be used for fighter training planes.
2. Isotta Fraschini has completed tests on a Delta motor using only one carburetor intake and a new type of compressor. The modified motor develops 1000 hp and has proven satisfactory in tests.
